Shayna Humanitarian Services Inc.

November 12, 2021

OVERVIEW

Worknest will build your website using a customized content management system (CMS). This CMS is used by other websites that require content management on their site. CMS will allow you to do the following once your website is launched:

- Easily update page content and images
- Manage newsletter subscribers
- Manage events and participants
- Post new contents to your blog
- Post new events to your website
- Manage inquiries sent from your website
- Custom modules required by the client

I proposed that your site be hosted using modern technologies. This will ensure that your website is capable of supporting a high expected volume of traffic while remaining protected from malicious entities.
